

# A SCHOLARSHIP TODAY. A PROMISE FOREVER.

*Two ways to give — and the goal that ties them together.*

Muse funds scholarships two ways at once. Regular donations go to work the year they arrive, funding small-to-medium awards for students today. Gifts to our endowment become permanent principal — never spent — whose interest alone funds full yearly \$10,000 scholarships, year after year, without end.

## GIVE TODAY

### The Annual Scholarship Fund

Your gift is put to work the year it's given — funding small-to-medium scholarships directly from current donations.

- **Immediate impact** — helps a student this year, not someday
- **Flexible awards** — sized to what we raise each year
- **Built to scale** — designed to grow from 3 active scholarships upward, with no fixed ceiling. The value of the grant depends on the funds we receive.

## ENDOW FOREVER

### The Muse Endowment

Your gift becomes permanent principal. It is never spent — only its interest is, funding a full \$10,000 scholarship every year, indefinitely.

- **Principal preserved** — your gift is never drawn down
- **Perpetual support** — interest alone funds the award
- **\$200,000 funds one yearly scholarship** — every year, at a 5% return

## OUR GOAL

**Our goal is principal, not proceeds.** At a 5% return, \$200,000 funds one \$10,000 scholarship a year without ever touching the gift itself. Every dollar endowed raises the number of students we can carry, permanently — and every dollar given annually reaches a student this year.
